The South 40

Cattle owners can vote in referendum

By JAMES A. SMITH
Extension Agent

Cattle owners will have the opportunity to vote in the Virginia Cattle Industry Self-Help referendum this August. In order to vote, each cattle owner having 10 or more cattle July 1, 1993, or January 1, 1994, must register between June 1 and June 30, 1994.

Hopefully all owners received a registration form within the past two weeks. If a spouse has an ownership interest in the cattle, having 10 or more head, they are also eligible to vote, but they must file a separate certification. Two or more names on a certification form voids the application.

Note that one place calls for the name to be printed or typed, while another place requires a signature.

The application requires your driver's license number. This is your social security number.

It isn't mandatory to vote, but all cattle owners are urged to become certified in order to vote their opinion.

Voting will be by mail.

The vote will ask whether you wish to assess 25 cents per head on each head of cattle (beef or dairy) sold.

The 25 cents will be paid on all cattle, except milk cows sold between farms and calves selling for less than $20.

If you did not receive a certification or need extra copies, contact John Harrison, County Chairman, 352-2245 or the County Extension Office 352-8244.

There is a 24c label in Virginia for the use of Mesurol 75 percent WP on corn for snail and slug control. Mix 2/3 pound of 75 percent WP Mesurol to 100 pounds of cracked corn plus one to two pints of water.

Broadcast 20 pounds of the prepared bait per acre where snail or slug damage is evident. Use a cyclone seeder that has been carefully calibrated. Apply in late afternoon or early evening, 60 days before harvest.

If you have bulls or purebred heifers that you would like to consign to one of the test stations this year--we need to know by June 30.

Senior bulls must have been calved between September 1 and December 31, 1983. Junior bulls must have been calved between December 1, 1983, and March 2, 1984. Heifers must have been calved between September 1, 1983, and February 28, 1984. Spring bulls must have been calved between March 1 and May 30, 1984.

The senior bull sale is February 2, and the junior bull and purebred heifer sale is March 2, 1985.

One of the major sources of tree wounds that create a serious threat to the health of trees is the lawn mower.

The more serious injury occurs in early spring or early fall when the bark is more likely to "slip".

Other than being careful, it is very useful to remove the sod from a 24 to 36 inch diameter around the tree and replace with a suitable mulch so there is no need for the mower operator to work close to the trees.

The Virginia Rural Leadership Development Program offers a new opportunity to Virginians between the ages of 25 and 40. This is a Kellog Foundation Program sponsored in cooperation with Virginia Tech and Virginia State.

We have information and application form and invite you to stop by and discuss this exciting new leadership cultivation program.

MEMBERS OF THE 1984 4-H Soils Judging Team are Brett Marston, Craig Ranson, Bob Poole and Curtis Moore. They will compete in June during State 4-H Congress held at Tech.

Music students are listed

The 1984 edition of WHO'S WHO IN MUSIC will carry the names of seven students from Appomattox County High School, who have been selected as being among the country's most outstanding high school musicians.

The students selected for inclusion in Who's Who include Michael A. McCoy, Lori L. Coggins, Tambra D. Hamlet, David A. Williams, Rochelle Y. Jones, Carolyn L. Carenefix, and Eve R. Thomas.

Campus nominating committees and editors of the annual directory have included the names of these students based on their academic achievement, service to the community, leadership in extracurricular activitees and potential for continued success.

They join an elite group of students selected from more than 1,300 institutions of higher learning in all 50 states, the District of Columbia and several foreign nations.

LISA HARRISON AND NANCY COLE, members of Senior Team Appomatox 4-H Forestry Judging, placed third in district competition on Saturday, May 19. Other members of the team were Kenneth McClenny and Darrell Conner.

4-H team will compete

The Appomattox 4-H Soils Judging Team has been working for the past several months in preparation for competition at the state level in June during the State 4-H Congress at Virginia Tech.

Members of the 1984 4-H Soils Judging Team are Craig Ranson, Curtis Moore, Brett Marston, and Bob Poole.

4-Hers involved in the Soils Judging Program learn to evaluate soil texture, structure, and the most intensive use that can be made of different soils without erosion problems development. The young people also learn about soil conservation practices used in commercial agriculture as well as with urban uses of our soils.

Assisting with the coaching of 4-H Soils Team are Bob McClenny, Soil Conservationist with SCS, and Bill Kitchall and Tom Saxton, members of the VA Tech Soil Survey Team. Sponsorship for the Virginia 4-H Soils Judging Program is provided by the Virginia Farm Bureau Federation.

4-H'ers in forestry contest

The Appomattox 4-H Forestry Team traveled to Staunton River State Park in Halifax County to take part in the District Forestry Contest on Saturday, May 19.

The senior team, composed of Lisa Harrison, Kenneth McClenny, Darrell Connor, and Nancy Cole placed third in the district competition. Kenneth McClenny was recognized as the fourth high individual in the contest.

An intermediate team consisting of Brent Harrison, Matt Servis, and Joe Servis placed first in the district contest.

4-H members in forestry judging learn to identify trees, estimate volume of standing timber (Stumpage), use a compass and pace distances, and make management decisions about forest stands. Young people also learn to identify forest insects and diseases.

The senior team will have the opportunity to participate in the State 4-H Forestry Contest on Monday, June 18, at Virginia Tech. Sponsorship for the Virginia 4-H Forestry Program is provided by the International Paper Company.

Happiness Is 4-H

By FRANK H. SWEET

Top 4-H Classes at Appomattox Elementary School for 1983-84 were Mrs. Almond's 4th grade, Mrs. Dickerson's 5th grade, and Miss Krufka's 6th grade. Their classes were selected based on the performance of the 4-H officers each month, the class attitude, respect, cooperation and behavior; and the percentage of the class taking part in Share-the-Fun, Presentations, Public Speaking, and Dairy Posters.

Blue ribbons went to Miss White's 5th grade, and Mrs. Mills' and Mrs. Turner's 6th grade classes.

The 4-H class evaluation system helps young people become aware of citizenship values and the importance of participation.

...

In September of 1983, each 4-H Class elected officers for the year. In school 4-H groups elected a President, Vice-President, Secretary, Reporter, and Recreation Leaders. Last week six classes at Appomattox Elementary School were recognized as having officers that had received perfect scores during the 4-H year. Those classes were: Mrs. Almond's 4th grade, Miss Bradley's 5th grade, Mrs. Dickerson's 5th grade, Mrs. Turner's 6th grade, Mrs. Oliver's 5th grade, and Mrs. Krufka's 6th grade.

...

4-H Camp class forms and health forms have been sent to each young person who has signed up for camp. 4-Hers are asked to complete and return these forms as soon as possible.

...

A 4-H Camp Planning Committee met last week to discuss plans and activities for the week of July 9-13 when Appomattox 4-Hers will be at Holiday Lake 4-H Center. Food offered helped to stimulate good working and team sports. Special evening programs will include a night swimming time, three dances, watermelon feast, visit from the big chief and a candle lighting ceremony.

Members have until June 15th to turn in camp applications. Please call us at the Extension Office if you have questions or if you need an additional camp form.

Eight 4-Hers will participate in the annual Intermediate Congress to be held June 10-15 at the Northern Virginia 4-H Center near Front Royal. Participating from Appomattox will be Beth Marston, daughter of Mr. & Mrs. Kenneth Marston; Sharla Kvasnicka, daughter of Mr. and Mrs. Paul D. Kvasnicka; Rhonda Ranson, daughter of Mr. and Mrs. Ronnie Ranson; and Terri Hamlett, daughter of Mr. and Mrs. Ronnie Hamlett. The Intermediate Congress is being held for 4-Hers [illegible]

ASCS Today

By TOM CONRAD

ASSESSMENT SET FOR NO-NET-COST BURLEY TOBACCO PROGRAM - Burley tobacco producers will be called upon to participate in the no-net-cost program by contributing 9 cents per pound on all tobacco sold in 1984.

The 9-cent assessment is necessary to cover projected government losses on the 1984 crop, plus a portion of the losses expected on the 1983 crop.

The remainder of the projected 1983 losses will be covered by assessments in future years after the initial impact of the program is analyzed.

Producers who elect not to contribute to the no-net-cost program will not be eligible for price support loans on their 1984-crop burley tobacco. They also will be subject to a penalty equal to 75 percent of the 1983 average market price for burley tobacco.

CROP REPORTS DUE - Farmers in the county that have or will plant corn, grain sorghum, tobacco and soybeans are reminded of the July 1 deadline for reporting acreages. The following actions pertain to reporting:

1. If you are in the feed grain program, an acreage report must be made to remain in compliance and not pay penalty.

2. If you are not in the feed grain program but have a base established for the farm, you need to report to preserve the base. Even if you have zero planted, you need to report zero.

3. If you don't have a base but have planted acreage, you need to report to establish a base.

4. Tobacco producers need to report in order to be eligible for price support. Any questions you have concerning acreage reports should be directed to us.

PESTICIDE USE ON TOBACCO - Tobacco producers are reminded that the use of DDT, TDE, Toxaphene or Endrin on tobacco is forbidden. Use of any of these chemicals will result in no price support.

At the time you pick up marketing cards, producers will be required to certify that they have not used any of the above mentioned pesticides on their tobacco.

MEASUREMENT SERVICE - Farmers can file an application at the ASCS office to have acreages premeasured. There is a nominal fee for this service, but it guarantees compliance in the program that the acreages are measured for. It will also give you figures which you can use to calculate you per acre costs.

Mr. Glenn S. Martin, Sr. is doing the measuring work and will visit your farm soon after the application if filed.

Richardson on dean's list

Michael S. (Mike) Richardson, son of Mr. and Mrs. Lloyd Richardson, Rt. 1, Pamplin, Va., has been named to the Dean's List for the past semester at Lynchburg College in Lynchburg, Va.

The List is comprised of students who have achieved a 3.5 or better grade average on a 4.0 grade scale.

Milking parlors, carousel operations, butterfat content, haylage, silage, protein supplements... it's the language of dairy. And you've got to speak it to succeed.

We speak Dairy. We make all kinds of short term loans to farmers for equipment purchases, operating expenses, whatever you need for your operation. We're farmer-owned and farmer-controlled. We know what you're up against. Call or come by today.
